I have read and understand all that has been proposed. I have received a copy of this contract for my records.

Brides Signature _____ Date _____

Who referred you to Bert's Bakery? _____

Additional Information

FLOWERS- We are always more than willing to lay your flowers on the cake and around the base. The flowers will need to be in arrangements and base flowers should be cut. It is a good idea to let us know that we will be placing the flowers on the cake so that we have the appropriate tools with us. Also if you have a specific lay out you should give us a sketch of exact placement.

FLOWER CHARGES-In the event that we are left to arrange your loose cake flowers we will charge you a minimum of **\$20.00**. We also will charge **\$20.00** for the storage and care of all fresh flowers delivered to the bakery prior to the wedding. (This saves the florist a trip to your hall and their expense for the service) We will deduct the fee from your deposit if you neglect to inform us at the time of payment.

ORNAMENTS-Ornaments can be brought to the bakery between 10-30 days before your wedding. We will do our best to secure your ornament on top of the cake. We are not responsible if your ornament falls off the cake.

DELIVERY-A delivery schedule is available on the Monday before your wedding. You can call for a delivery time. If you have any request, please let us know 10 days in advance at the time of finalizing. We will take all requests in consideration and will do our best to accommodate you, but I will not guarantee it. I will not deliver your cake until I feel secure in the fact that the cake will be its best when served. ***Florists are encouraged to call for a delivery time.**

PICKING UP YOUR WEDDING CAKE- If you choose to pick up your wedding cake you should make sure that you have a clean, flat surface to set cake on while driving. Vans, Sport utility and any vehicle that the back seat folds in so the air can make it to the trunk are the best for traveling with the cake. The cakes are not boxed and you should never have any one hold any part of the cake on their lap. **Speed is never the issue it's stopping and turning corners. No Slamming on the brakes and taking corners fast.**
